

INVITATION FOR 3-DAYS PRACTICAL TRAINING ON INFERTILITY AND ASSISTED REPRODUCTION TECHNOLOGY

❖ **Venue 1:** Jakaya Kikwete Convention Centre.
2nd August 2023 to 4th August 2023

❖ **Course Fees per participant: TZS 200,000/-**

COURSE OVERVIEW; Worldwide, more than 70 million couples suffer from infertility. Assisted reproductive technologies (ART) have emerged as a treatment for infertility since 1978 nevertheless there has been a gap in knowledge among medical practitioners regarding Assisted reproductive technology.

Medical CPD house has organized a three days practical training aims to optimally develop professional competencies to medical practitioners who are working with patients with infertility. Participants will learn how to evaluate causes of infertility, give appropriate ovulation induction protocol, perform follicular growth tracking, semen analysis, sperm preparation, intrauterine insemination, sperm cryopreservation and finally to start offering intrauterine insemination to their patients. .

COURSE OBJECTIVES

Upon completing this course, the participant will be able to:

- Systematically evaluate the causes of infertility.
- Apply the suitable ovulation induction protocols to the patients.
- Ability to read and interpret seminal analysis report.
- Understand the basic principle for intrauterine insemination.
- Understand the basic principle for sperm cryopreservation.

WHO SHOULD ATTEND? Medical professionals working or intending to work with patients with infertility.
